REDERICK WHITE SULPHUR SPRINGS
—situated six miles east of Winchester, Va., and one mile and a half from Stephenson's depot, on the Winchester and Potomac railroad—are now open for the reception of company.

This water is inferior to none in the State, as it holds in solution sulphureted hydrogen, jodine, and magnesia, imparting tone to the aystem, and acting as a powerful alterative, as numerous visiters can testify, having been visited for the last fifty years, and, had it not been for its contracted accommodations; must have been among the first watering places in the Union. For the last five years, the improvements have been increased so as to accommodate between two and three hundred visiters.

The proprietor has endeavored to put this watering place on a footing with the most fashionable and comfortable places of the sort, in a plain style, and will use every exertion in his power to make his
